WEEKEND EXTRA RULES AND CONDITIONS

MARKING OF COUPON – LONG LIST

Mark Fig.1 for a home team win. (Printed on the left).
Mark Fig.2 for an away team win. (Printed on the right).
Mark 'X' for a drawn game.

Where a match is played on a neutral venue, for coupon marking purposes, the left hand team will count as the home side.

The minimum number of selections are as indicated at the top of the Long List on the front of the coupon, there is no limit to the number of selections which may be chosen.

LONG LIST BONUSES

Bonuses only apply to Divisional Sections Bets, and will not be paid if any void selections are included.

GENERAL

Should a match be brought forward, bets will stand provided they are placed before the kick off. Selections placed after the kick off will be void. Should a match be postponed or re-arranged, bets will only stand if played on the following day, otherwise selections will be void. Sunday matches (and scheduled Monday matches where included on the coupon) are accepted.

All bets are accepted up to kick off time. If a bet is placed after the kick off time of any match those forecasts will be void and the bet will stand on the remaining matches. (If a bet is placed mistakenly on the wrong list providing it is acceptable on another list, the bet will remain valid). Ninety minutes playing time will decide the result of all matches. Extra time does not count.

Perms are accepted provided instructions are clear. Any number of selections without specific instructions will be settled as an accumulator. Plans and other conditional bets are not accepted. Postal bets are not accepted unless prior arrangements are made with the management. Pools panel verdicts are not accepted. Should a client enter his total stake at the bottom of the coupon but neglect to enter stakes at the bottom of each line, stakes will be divided equally. Should a client enter stakes at the bottom of each line but enter the total stake incorrectly, understaking the bet, settlement will be made in proportion to the total stake. Where a bet is overstaked, the bet will be settled as written and overstakes returned. Should a client enter a line but neglect to enter the stake for that line, the bet will remain valid as long as provision has been made for that bet within the total stake. If provision has not been made for the bet within the total stake, that line will be void.

ABANDONED AND VOID

If a match is abandoned before 90 minutes playing time has elapsed that match will be void (unless it is restaged during that week, up to and including Sunday, when the 90 minute score will govern settlement) and wagers will stand on the remaining selections in the bet. Bets originally containing the correct number of selections but including void or

postponed matches will stand on the remaining selections in the bet. Should a team play a different opposition to that on the coupon, or should a venue be reversed, forecasts for that match will be declared void. Should a match be changed from a home venue to a neutral one forecasts for that match will be declared void, unless the match is a FIFA/UEFA governed event (e.g. International match, UEFA cup, Champions league) when forecasts for that match will stand so long as it is played in the same country of origin.

STAKING OF BETS

Enter the stake in the box at the base of each column to indicate the investment you require on each line of selections. If you use permutation, the unit stake should be written with the perm instructions alongside your selections, and the box at the base of the column left blank.

SETTLEMENT OF WINNERS

Bets are settled at accumulative odds, palpable errors excepted, at the prices displayed at the time the bet is accepted. Odds are subject to fluctuation.

MAXIMUM PAYOUT

The maximum payout limit displayed in the office where this coupon is placed is the maximum amount that can be won by any one client in any one day's business or on any one individual odds coupon bet irrespective of the total stake. This rule also applies to football bets written on plain betting slips and should be taken into consideration when staking wagers.

We will not be liable to pay any bet not recorded on our security camera. *It is the clients responsibility to ensure that investments are correctly and clearly marked. We reserve the right to refuse any bet, or any part of a bet, offered to us. In the event of a dispute arising from a bet or a rule, the matter will be referred for arbitration to the "IBAS." Any announcement published in the "Racing Post" or other press is to be read as being part of our rules. The placing of a bet signifies the clients acceptance of our rules.*

HALF TIME

The minimum number of selections is 3. Betting is for 45 minutes only. Should a match be abandoned, bets will stand providing half-time has been reached.

HIGHEST SCORING MATCH

Dead heat rules apply. In the event of one match only being abandoned, all bets will stand providing the total goals in the abandoned match is equal or greater to the highest total of the other quoted games, otherwise all bets will be declared void. Two or more abandoned matches and/or any postponed games then all bets will be declared void.

GOAL RUSH

Dead heat rules apply. In the event of one match only being abandoned, all bets will stand providing the total goals of the team in the abandoned match is equal or greater to the highest total of the other quoted teams, otherwise all bets will be declared void. Two or more abandoned matches and/or any postponed games then all bets will be declared void.

MATCH SPECIALS

Singles only. On multiple goalscorer bets, (i.e. 2 or more players to score) if a player takes no part in the official 90 minutes (including injury time) the bet will be settled on the remaining player(s) at the prevailing "score at anytime" price(s).

BONUS PERM

Six selections only must be made from the twelve listed matches. A 25% bonus will be paid on the total returns for 6 correct selections but will not apply should the bet include any void selection(s). On this list clients may select Homes, Draws or Aways, or combine all three. Only 6 selections should be made. Should the bonus perm be accepted in error not containing the correct number of 6 selections, the stake will be split across trebles and upwards on the remaining selections, and no bonus will be paid. If only one or two teams are selected, the bet will be void and the stake returned. The Bonus Perm consists of 6 selections; 20 trebles, 15 fourfolds, 6 fivefolds and 1 accumulator, a total of 42 bets.

MYTHICAL MATCHES

Each team is matched against a mythical opponent. The team scoring the most goals will be the winner of the match, regardless of whether they win or lose. If both teams score the same number of goals the match will be a draw. Correct scores are not allowed. If either team in the mythical match does not play due to postponement the mythical match will be declared void. If a match is abandoned before 90 minutes the mythical match will be declared void, unless the team in the abandoned match has scored more than their mythical opponent.

Match dates, kick off times, competition information and television coverage are for guidance only and are subject to change. The example minimum odds on the coupon are also for guidance only. Clients are advised that all bets will be settled at the accumulative individual odds at the time of placement, subject to bonuses (if applicable).
